

## Preparing your home for photographs and / or a Matterport 3D tour during the current COVID 19 crisis.

### Our responsibility...

- ✓ We wear disposable foot covering, a mask, and gloves when able. (Our touch screens do not work efficiently with gloves).
- ✓ We **do NOT** touch anything in the house other than necessary door knobs and light switches. We will leave them on when we leave.
- ✓ When we are finished and ready to leave the house, we use disinfectant spray on anything that we have touched.

### Your responsibility...

- ✓ Please **turn on all lights** for us. That way we do not have to touch your light switches.
- ✓ Please open all blinds, shades or curtains. It will make your home appear to be larger and brighter in the photos / tour.
- ✓ Please make sure that your **home is presentable**. Counters and sinks clear of clutter, waste baskets empty, and beds made. We do not photograph closets. *Remember, the whole world is going to view your home on the internet.*
- ✓ Please make sure that the **yard, deck and/or patios** are cleaned up.
- ✓ Please move any **extra cars** out of the driveway.

**NOTE THAT PER THE NEW MAINE RULES, SELLERS AND OCCUPANTS MUST NOT BE INSIDE THE HOME WHILE WE WORK. WE CAN CALL OR TEXT WHEN WE ARE FINISHED, OR IT IS OK TO WAIT OUTSIDE. (The average time for photographs and home tour is 2.5 hours.)**

**WE ARE LICENCED AND INSURED. [www.ListingTunnel.com](http://www.ListingTunnel.com)**
